

Program Highlights

- A contractor, or someone involved, can target/recruit a potential candidate from the local high schools, or tech school, or just in general, and get them into the apprenticeship program.
- The contractor needs to register with Department of Labor.
- Candidate must be age 16 or above. Can still qualify for workers comp and most insurances.
- The person will then work for the contractor as on the job (OJT) training, and will attend classes at night.
- The person must have all the OJT and education to finish the program.
- Contractor will need to keep a simple log of activities and learned skills. Must report 1x per year.
- We can develop our own standardization or utilize the “Work Keys” program.
- Contractor will receive a \$1000 tax credit for each apprentice.
- On candidates in the unemployed ranks, can get 50 – 100% of salary paid plus tax incentives.
- They will receive a journeyman certificate at the end of the three year program.
- Contractors will be able to advertise that they have an apprenticeship program.
- Veterans can take advantage of the program, and get a stipend check up to \$10K.

The simplified version is:

1. Identify the person
2. Get them to sign up at the local college
3. Hire them and fill out appropriate forms
4. Keep up the OJT progression forms
